

Model Euro 200 Vertical Form Fill and Seal Machine

Complete production line from vibration feed hopper to rotary packing table.
All stainless steel construction, direct servo drive, gas flushing and with many other usefull features.

Production line is made up of the following all Stainless Steel construction

- 1) Euro 200 Vertical Form Fill and Seal Machine
- 2) 400 liter Stainless Steel vibration Hopper
- 3) 4 meter high Bucket Elevator
- 4) Euro 1000 10 Head Multi Head weigher
- 5) Product Takeaway Conveyor
- 6) 1200 mm Rotary Packing Table
- 7) Full size Stainless Steel Platform

Extra Features

Gas Flushing (adjustable)
Euroslot
Tear Slit
Markem Smartdate 3 Printer

This machine is almost brand new, it has only done 120000 bags!
For a machine that can produce up tp 70 bags a minute!!!
There are a multitude of options on this machine. You can use a clear film and pack to a variety of sizes, we produced bags from 70mm to 250 mm in length depending on the weight of product required.

Euro 200 Vertical Form Fill and Seal Machine

Technical Details

Bag Sizes	Min 70 mm x 100 mm length Max 210 mm x 340 length
Speed	70 packs/min (depending on product & pack size)
Maximum Reel	450 mm (Inner core -70 mm-80 mm, 300 mm diameter)
Machine Dimension	1700 mm wide x 1350 mm depth x 1475 mm height
Power Supply	3 phase-380 V-415 Volts-50-60 hz 1 phase-220-240/Volts
Air Consumption	6kg/cm-0.25/min
Voltage Variation	10%
Installed Power	6KW

Weight 700 kilos

Euro 1000 10 Head Multi Head weigher

Technical Details

Weighing Range Up to 1000 g 1.3 or 2.5 Buckets

Weighing Accuracy +/- 0.3 -1g

Speed Up to 65 bags/min (Depends on Product)

Construction Stainless Steel

Programs 99 presets

Display Screen Color Display 5.7 inch LCD with digital input keypad

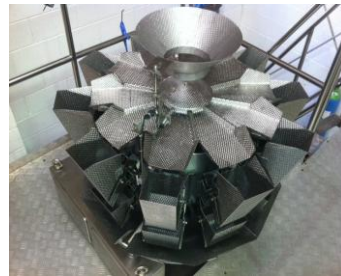

Net Weight 330kg

Gross weight 380 kg

Power Supply 220 V

Power 1100 W

Package Size 1440 mm(W), 1140 mm(D), 1020mm(H)

Product Takeaway Conveyor

Stainless Steel Platform

Platform can be seen in top photo of machine

This is an all Stainless Steel construction with Aluminium Checker plating on the platform. All the joints are webbed for strength and reinforcement.
